- **Percentage:** 94%
- **Achievements:** Secured Second position in BIEK 2022, awarded a gold medal and 75% merit Scholarship for two consecutive years by Bahria College Karsaz.

EXPERIENCE

GAO Tek   **New York, USA**
Web Developer Intern (Remote)   *Mar 2024 – Jun 2024*
- Strengthened WordPress skills by mastering theme customization, plugins, and content management.
- Collaborated with cross-functional teams to optimize user experiences.
- Gained digital marketing skills including Google Tag Manager, Google Analytics, and tracking conversions.

PROJECTS

Nosh- Food Ordering System
Team Lead   *Jun 2024 – July 2024*
- Developed a food ordering system for a restaurant chain using the PERN stack, enabling customers to browse the menu and place orders seamlessly.
- Implemented an admin interface to manage menu items, handle orders, and perform CRUD operations, enhancing restaurant management efficiency.

My Friendly Desktop
Team Member   *Dec 2022 – Jan 2023*
- Created a machine learning-based desktop application that dynamically adjusts screen wallpaper and displays uplifting quotes based on real-time emotion detection.
- Utilized Python libraries such as OpenCV for face detection, DeepFace for emotion analysis, and Tkinter for the GUI, with enhancements made using OOP and DSA principles.

CERTIFICATES

CodeSphere'23 – 1st Runner Up in Data Science
Projects Competition held in Dept. of Software Engineering, NED University   *Dec – 2023*
React Basics By Meta
Coursera   *Sep - 2023*
HTML, CSS & JavaScript for Web Developers
Coursera   *June - 2023*
